

Meddybemps Miniature Village™ Christmas Tree Stand

To assemble:

- Cut the building from this sheet with scissors. Cut slits carefully with hobby knife.
- Fold and gently crease tabs, corners of building, roof panels and bottom flaps.
- Slip tabs into slots. Save bottom flaps until last.
- Fold bottom flaps under in numerical order. Flap 4 is last and should tuck under Flap 1 to hold them all in place. Use glue or tape for permanent assembly.

For more ideas and inspiration, visit www.meddybemps.com/trains/village.html.

Cut slits where you see heavy black lines.

Cut out top and sides of sign.

Tuck under side flap. Secure with glue or tape.

Cut slit along heavy white line.

Cut slits where you see heavy white lines.
