

Chateau Meddybemps®

# Meddybemps Miniature Village™ Fire Station

**To assemble:**

- Cut the building from this sheet with scissors. Cut slits carefully with hobby knife.
- Fold and gently crease tabs, corners of building, roof panels and bottom flaps.
- Slip tabs into slots. Save bottom flaps until last.
- Fold bottom flaps under in numerical order. Flap 4 is last and should tuck under Flap 1 to hold them all in place. Use glue or tape for permanent assembly.

For more ideas and inspiration, visit [www.meddybemps.com/trains/village.html](http://www.meddybemps.com/trains/village.html).

## Village Fire Station

I hear the horns and sirens  
of fire trucks on the way.  
Fire fighters full of courage  
will come to save the day.

They'll move us all to safety,  
then put the fire out.  
We will be so thankful  
that we will have to shout,  
"Hooray! Hooray! Hooray!"
